WEAVER'S ROSES

— For 1941 —

ARE THE WORLD'S BEST

What a Difference—Our Roses, on removal from growing fields are placed immediately into our Rose Cellar where the air is moist and temperature 35 to 40 degrees with roots covered in damp moss. What a difference from over the counter store roses. That's why our Roses bloom abundantly and give entire satisfaction.

We pride ourselves on the many good varieties grown which include most popular and proven newer kinds, all tested here at our Nursery.

PRICE: On The World's Best, Portland Grown, Premium Oregon Roses—Heavy 2 and 3 year strictly No. 1 and extra grade bushes, all varieties, each, 50c; 6, \$2.75; 12, \$5.50; 100, \$45.

Shippers add 10c each for packing, 35c for 6, 50c for 12 if wanted delivered prepaid as our Roses are strong heavy bushes.

Planted in your garden in Wichita and within a radius of 50 miles and guaranteed to live, grow and bloom abundantly. \$1.50 per 6 or \$2.50 per dozen additional, any assortment of varieties.

Monthly or Everblooming Roses

● REDS

AMI QUINARD—Velvety crimson-maroon, vigorous grower. Rich in fragrance. Buds so red they are almost black.

CHAS. K. DOUGLAS—An admirable and dependable, honest red rose taking high rank among a score or more of similar varieties. It owns a pleasingly dependable and free-flowering plant.

CHRISTOPHER STONE—Large semi-double flowers of a vivid scarlet overlaid with velvety crimson. The blooms have a delicious old-rose scent. Of vigorous upright growth with bright green foliage.

E. G. HILL—Beautiful long bud of perfect form and full, double high-centered flower of dazzling scarlet shading to a deeper red as it develops. Strong, vigorous, free-flowering habit.

ETOILE de HOLLANDE—The most popular deep velvety red rose for any garden. While not as prolific as Red Radiance, grows and blooms well and should be included in all plantings.

ESSENCE—The long-sought double Etoile de Hollande. Bloom deep crimson. Full of "Essence" or Rose. Vigorous grower.

GRENOBLE—Crimson buds with the open flower a brilliant red, almost scarlet on unusually long stems. Vigorous plant. One of the best red.

GLOWING CARMINE—The name appropriately describes this beautiful rose. It is a strong grower with well-shaped buds representing a splendid color that lasts exceptionally well, an improved Red Radiance for color.

HORTULANUS BUDDÉ—Fine crimson Holland rose, shows sometimes a yellow center when fully open, thus adding distinction. Its plant is of good quality.

MARGARET McGREDY—Buds very large and long pointed. Large, shapely, long lasting, very double flowers, which are fragrant and a brilliantly rich shade of Oriental red. Vigorous and free flowering.

- McGREDDY'S SCARLET**—In cool weather, the name is fully justified here as it is in Ireland, but in mid-summer the rose assumes a tint straddling the fence between pink and red. The flowers are large, full, of perfect shape and form.
- NATIONAL FLOWER GUILD**—This vigorous, fine, pure scarlet-red rose merits full attention and use, both for bloom-persistence and plant-strength.
- OLYMPIAD**—A brilliant red, and at its best a thoroughly effective rose.
- ROUGE MALLERIN**—Double, well formed blooms of striking and lasting deep red. A new variety of promise.
- RADIANCE RED**—The Radiances are used as a basis for hardiness for all other monthly blooming roses. Color a bright cerise red, large fine form and always in bloom, will make ten cut flowers to most other kinds.
- SOUTHPORT**—Brilliant, unfading scarlet roses with full, cupped flowers, very lasting and exceedingly fragrant.
- SYRACUSE**—Is a very full, double rose; it is not very fragrant but lasts long and in its scarlet-crimson beauty is grown on an excellent plant.
- SENATOR**—A true scarlet or brilliant red is Senator, also richly fragrant. A rare rose and persistent bloomer.
- TEMNO**—The largest of all the darkest roses. Has richest deep maroon velvety tones. A good plant of branching habit.
- VICTORIA HARRINGTON**—A new large and very rich red rose with exquisite buds and attractively curved petals when open. Lasts well when cut.

● PINK

- BRIARCLIFF**—A large, high-pointed, double, very lasting moderately fragrant flower of a brilliant rose-pink at center, toning lighter at outer petals.
- COLUMBIA**—Has great double roses, following a lovely bud, and providing intensely fragrant rose-pink blooms on long stems.
- DAME EDITH HELEN**—Perfect bud developing into a great flower of immense size. The color is a brilliant but soft rose pink.
- EDITOR MCFARLAND**—Solid glowing pink with slight suffusion of yellow. There are those who insist it is the best rose of its peculiarly even color.
- EDITH NELLIE PERKINS**—Vigorous in growth and free flowering. Long pointed buds. Double flower of good size, long lasting and fragrant. Outside of petals Orient red shaded cerise orange; inside salmon-pink.
- IMPRESS**—Great Dahlia-like flame pink rose of extraordinary habit and texture. It's different and worthy of a trial if something extra is desired.
- MRS. HENRY BOWLES**—Excellent deep pink rose of good substance and always in bloom in our garden, supplying daily lovely cut flowers.
- MRS. W. C. MILLER**—One of the largest of all true Pink Roses and a strong blooming rose on an excellent plant. You'll like it.
- MISS ROWENA THOM**—Large, long, pointed buds developing to high-centered well-formed, double, fragrant flowers 5½ inches across. A brilliant satiny pink.
- PINK RADIANCE**—The popular carmine-pink rose that succeeds for everyone, same as sport sister Red Radiance.
- PINK DAWN**—A vigorous rose producing an abundance of well formed double flowers of glistening deep rose and opening to lovely pink, tinted with orange at the base of petals; sweetly fragrant.
- PORTADOWN FRAGRANCE**—Is a rose particularly distinguished by its exceptional fragrance, in addition to its excellent form and brilliant color. We need emphasis on fragrance in new roses.
- SOUV. de MME. CHAMBARD**—A magnificent rich pink rose of remarkable fine form. A truly great rose on an excellent plant.

● ORANGE

- AUTUMN**—A novel orange streaked and marked with red bud of medium size developing into an attractive cupped, double, fragrant flower. Plant is of moderate growth and an excellent bloomer.
- DUQUESA de PENARNADA**—Beautiful deep Apricot. Flowers of definite individuality and high quality on an excellent plant.

GRUSS an COBURG—Coppery buds and great double flowers of almost brown-orange shades. Good bloomer and flowers last well. Good plant.

KATHERINE PEACHTOLD—A glorious combination of rich orange and gold. The buds are long and the gracefully formed flowers have an intriguing fragrance.

LADY FORTEVOIT—Very fragrant, golden yellow blooms with orange to deep apricot. The plant is good and blooms well.

LOUISE CATHERINE BRESLAU—Warm tinted rose of coppery orange. Very striking in form and color. In fact an outstanding Rose.

MME. EDOURDE HERRIOTT—Coral red buds shaded with yellow at the base. Medium size, semi-double flowers of coral-red shaded with yellow and bright rosy scarlet passing to salmon pink.

MME. JOSEPH PERRAUD—It is an excellent sort, with its rich coppery-red and yellow tones and its admirable plant habit.

● MULTICOLORS

GAIETY—Large bud, long pointed, flower large double, orange with gold markings finishing coral and pearl. A most handsome and vigorous plant.

BETTY UPRICHARD—Very fragrant flowers of a delicate salmon-pink, reverse carmine with coppery sheen. Beautiful long pointed buds opening into large, open long-lasting blooms borne profusely on vigorous bushy plants.

CONDESA de SASTAGO—It is not a bud rose, but a very full and glowing open flower produced on a substantial plant and desirable uniformity of growth.

FREDERICO CASAS—A prize winning rose of fragrant, red and yellow flowers, long stout stems and very lasting as a cut flower. Strong grower.

FAIENCE—Two-toned, soft peach and cadmium-yellow. Has exquisite form from long, tapering bud to full-petaled opening of bloom.

HEINRICH WENDLAND—Large, long pointed buds. Very large, double, full high-centered flowers of a delightful fruity fragrance. An unfading Nasturtium red color, the reverse of the petals a deep golden yellow.

HINRICH GAEDE—Large double flowers of rich luminous vermilion shaded with golden yellow. Has a rich fruity fragrance and lovely long pointed buds of a brilliant Nasturtium red color. The plants seem almost trouble-proof.

MME. NICOLAS AUSSEL—A finely formed flower and elegant bud with orange salmon hues. An improved Mme. Ed. Herriott.

MEV. G. A. VAN ROSSEM—Is richly orange, with yellow and red shadings and veinings that make it most pleasing.

MRS. SAM MCGREDY—A plant of vigorous and free habit, carrying a great abundance of delicately perfumed flowers. The color of the lovely well-shaped bloom is beautiful coppery scarlet-orange, heavily flushed with red on the outside of the petals. Truly a magnificent variety.

PRESIDENT HOOVER—A splendid combination of cerise-pink, flame, scarlet and yellow. The buds are beautifully pointed, the flowers large, composed of broad, thick, heavy petals. Fragrant.

TALISMAN—Long pointed buds of bright yellow. As the petals unfold they develop into double, fragrant, high-centered flowers that combine bright apricot.

WILHELM KORDES—It has size, fragrance, and the much-loved mingling of yellow and copper tints in its ample flowers.

● YELLOWS

FEU JOSEPH LOOYMANS—Long-pointed bud grows into a large cupped flower of Indian Yellow. The plant is reasonably vigorous and of good blooming habit.

GOLDEN DAWN—An ideal yellow garden Rose. The lemon yellow bud is heavily splashed with crimson before opening and develops into a well-formed, sweetly-scented, large, double Sunflower yellow.

GOLDEN EMBLEM—Beautiful rich yellow, glossy foliage. A lovely yellow rose.

GOLDEN RAPTURE—A splendid yellow rose that holds its color well. Magnificent for bedding and very desirable for cutting. The lovely pure yellow buds are of ideal form.

- JOANNA HILL**—Large, yellow with bronze shading in center. Fragrant, vigorous and popular with many.
- MAX KRAUSE**—Extremely double flowers of large size, changing from reddish orange to golden yellow when fully open. They are borne singly on long stems and are richly fragrant.
- McGREDY'S YELLOW**—An excellent rose of vigorous strong growth. It has buds of beautiful form which open into appealing flowers of an unfading canary yellow color with a mass of golden yellow anthers. It is a free bloomer with dark, glossy holly-like foliage.
- MRS. E. P. THOM**—The best yellow bedding Rose. The good-sized buds are long and develop into full, double very shapely flowers of a rich deep lemon yellow. Sweetly scented.
- MRS. P. S. DUPONT**—Medium-sized, long, pointed buds of a reddish gold opening to semi-double, very lasting fragrant flowers of a deep golden yellow. The strong, vigorous plants are compact growth. A profuse and continuous bloomer.
- PHYLLIS GOLD**—Large, double, butter-yellow rose of fine substance. A well liked variety among the newer sorts.
- ROSLYN**—Large, double, deep golden yellow. Vigorous grower. Has done fine in our trial grounds.
- VILLE DE PARIS**—A very distinct rich buttercup yellow retaining its beautiful color under all weather conditions. Quite double and profuse bloomer. One of our specialties.

● WHITE

- EDEL**—An enormous, bold, stately, well built flower of great depth, quality and finish. Color white with the faintest ivory shading. Fragrant.
- K. A. VICTORIA**—A favorite old white with shapely, long pointed bud and good size, double fragrant flower.
- MME. JULES BOUCHE**—A splendid white, at times slightly tinted with just a touch of tender blush pink. Long pointed shapely buds and full double, fragrant, well formed flowers. Vigorous growth.
- McGREDY'S IVORY**—Large, high-centered, lasting, moderately fragrant blooms of delicate creamy white merging into yellow base. Of vigorous growth, bearing several blooms on a stem.

Climbing Roses

● HARDY CLIMBERS

- CL. AMERICAN BEAUTY**—Large buds and flowers of bright purplish-crimson. An old stand-by.
- CL. AMERICAN PILLAR**—Flowers single. Brilliant pink with a white eye, borne in clusters. Very hardy.
- CL. CHAPLIN'S PINK**—A fine pink of the Paul's Scarlet type.
- CL. PAUL'S SCARLET**—Flowers large, well-shaped, vivid scarlet-red, fading but little.
- CL. ROYAL SCARLET**—An improved Paul's Scarlet, deeper in color. New.
- CL. SILVER MOON**—Flowers semi-double, very large, with brilliant yellow stamens.

● EVERBLOOMING CLIMBERS

- CL. DAME EDITH HELEN**—The flowers resemble a perfectly shaped bright pink Francis Scott Key. The most perfumed of all pink roses.
- CL. PRESIDENT HOOVER**—Maroon orange and gold.

● RUGOSA HYBRIDS

- RED GROOTENDORST**—Red everblooming of strong vigorous growth, requires no winter protection. Showy.
- SCHWABENLAND**—A strong growing winter hardy Hybrid Rugosa, double luminous pink of lasting quality.

● BABY ROSES

- GRUSS AN AACHEN**—Orange-pink in bud, turning to soft, salmon-pink and white on opening.
- LAFAYETTE**—A dwarf, bushy grower producing semi-double, cherry-crimson flowers.
- MISS EDITH CAVEL**—Brilliant scarlet. Close clustered.
- TRI de ORLEANS**—Vivid rosy crimson. The blooms are produced with characteristic freedom and continuity.
